

## Use Fraction Vocabulary

### What You Need

- Recording Sheet

### ✓ Check Understanding

There are 4 marks between 0 and 1 on a number line. Draw the number line. Use fraction vocabulary to tell about one of the marks on it.

### What You Do

1. Read the problem on the **Recording Sheet**.  
Think about how to solve it.
2. Read the paragraphs that tell how to solve the problem.
3. Use words and numbers from the word bank and number bank to fill in the blanks.
4. Take turns. After you fill in a blank, your partner fills in the next one.
5. When all the blanks are filled in, read the paragraphs aloud. Do they make sense?
6. Fix any mistakes, if you need to.

*You might change your mind after you fill in some blanks. It's okay to erase!*

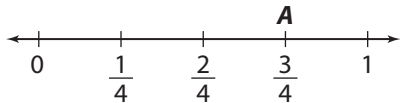

### Go Further!

Write two sentences about fractions using at least three words from the word bank.

Use Fraction Vocabulary

What fraction does point A represent?

The picture shows a \_\_\_\_\_. Each mark between 0 and 1 represents a \_\_\_\_\_. The first mark after the 0 represents the fraction \_\_\_\_\_. It is called a \_\_\_\_\_ because the numerator is 1.

The number 1 on the number line represents 1 \_\_\_\_\_.

The number line is \_\_\_\_\_ into \_\_\_\_\_ equal parts. The \_\_\_\_\_ of each fraction on the number line is 4. The middle mark represents \_\_\_\_\_. The \_\_\_\_\_ for point A is 3.

Point A represents  $\frac{3}{4}$ .
